THE THEME

Mantova is a wonderful art town, whose rich cultural heritage earned the title “World Heritage Site” and Italy’s 2016 Capital of Culture. All these honorary titles are due to its intact and authentic architectural monuments, as the UNESCO declaration about the universal value of Mantua cultural heritage states, and also to the strong connection between these monuments and the area. Nowadays, this area is being jeopardized by the decay, owed by the state of abandon of some important urban areas, which have lost their original function and have difficulty in finding a new one.

Pursuing the same goals claimed in the notice for the title of Italian Capital of Culture, our award shares the value of fostering culture in order to create social cohesion, integration, cultural identity, to increase economic development as well as public and individual wealth.
